

A WORD ON QUALITY

Some of our shopping carts are made of heavy-duty steel, while others are made of aluminum. All of our shopping carts are built to last and are designed to be easy to use. We have a variety of shopping carts to choose from, including standard, heavy-duty, and folding. We also have a variety of accessories, including baskets, bins, and bags. We are committed to providing you with the highest quality shopping carts and accessories at the lowest possible price.

PC-1 CAGE

A pro cage that truly leads the field. Designed exclusively for brazed-on mounts, it sets a new standard for strength and lightness - only 38 grams. Look for the distinctive red top.

BB-1 BAR CAGE

The solution. An ingenious cage that installs on handlebars in seconds. And removes just as easily. Handy. Convenient. Perfect.

Pat. No. 4,640,449

Bottle Cage colors:

MC-1 MTN. CAGE

There's only one cage designed especially for mountain bikes.

*Bomb-Proof.
Bottles won't bounce out.*

BC-1 COMPETITION

Pat. No. D 264,954

America's favorite alloy cage. Race-proven around the world. All-aluminum welded construction. The unique wide cradle design lets the bottle snap smoothly in and out.

BX-1 EXPEDITION

Rugged yet incredibly light. Only 65 grams - lighter than steel cages. An expedition-grade cage for ATB's tandems, touring. Great for larger bottles.

A WORD ON QUALITY

Some of our designs have been imitated - our quality hasn't. It starts with the material. All aluminum may look the same - it isn't.

The 6061-T6 heat-treated alloy used only by Blackburn is the best available combination of rigidity, tensile strength, and yield strength. It costs more - and it's worth more

Custom—only for thru hole braze-ons. Clean rigid.

Check with your dealer to see which rack colors are available.

SX-1 EXPEDITION

Pat. No. 4,154,382
B1 4,154,382

Rugged — the **best** rack for touring. Extra tire clearance for mountain bikes. Perfect for tandems and bikes with braze-on mounts. Adjusts to fit an incredible range of frame sizes and styles.

CUSTOMER SATISFACTION

Our reputation for quality and service is more important than any ad or sales promotion. Blackburn Performance Products are sold throughout America, Canada, Great Britain, Australia and Europe. If you have a problem, at home or on the road, contact the nearest bike shop. Or contact us. Blackburn products are guaranteed for workmanship and materials. Replacement or repairs are handled promptly.

No Foot-Dragging.
No Hassles.
No Charge.

FL-1 LOWRIDERS

Pat. No. D 268,699 4,487,344

A true design breakthrough. Low pannier placement with optimal handling, stability, safety. Ideal for mountain bikes, and tandems too. Use with or without a Blackburn AF-1 front rack.

CL-1 CUSTOM LOWRIDERS

Pat. No. D292,900

A lowrider model for bikes special enough to have the custom CL-1 brazed-on mounts. They feature more rigidity, more strength, and unlimited tire clearance. Also a new cleaner look. The ultimate carrier. Note: bicycles can be retro-fitted with CL-1 braze-ons.

MTN. RACK

Pat. No. D285,426

The rack mountain-bikers ask for— this one can take it! Specially designed for wide tires and mountain bike frames. Unique mid strut and structural platform. Extra-strong large gauge alloy throughout. 4-way adjusting mounts. Rugged.

Bikes with 24 in. wheels use MTN 24
For taller frames use MTN-2
For smaller frames use MTN-3

MT-F FRONT MTN. RACK

Pat. No. D299,225

Not your ordinary front rack. This one has a truly unique design that is the solution to the special needs of mountain bikes. Alloy shelf and no brake interference.

SS-1 SEAT STAY

Pat. No. 4,154,382
B1 4,154,382

Preferred by custom framebuilders for its clean and simple design. Rigid 4-point mounting. Ideal for brazed-on fittings.

SS-1 fits 21"-23" frames.

SS-2 for 24"-26".

SS-3 for 18"-20".

RS-1 RACKSTRAP

The only strap designed especially for cycling. Works better than a bungee cord. The double strap of flat-woven elastic ensures a secure grip.

L**A****C****K****B**

AR-1 ADJUSTABLE

The world's most popular welded alloy rack. For light-touring. Lightweight yet exceptional rigidity. Easy brake-bolt installation. For tall frames — over 24" — use model **AR-2**.

Pat. No. 4,154,382
B1 4,154,382

AF-1 FRONT

The standard in front racks. Use it with a rear rack to balance a heavy load. Fits all fork/brake combinations. Great with lowriders.

BAKED TO PERFECTION

We've put nine of the hottest colors on bottle cages and MTN Racks. Baked on electrostatic powder coating gives you super saturated colors with a nearly indestructible finish.
